

Cypripedium General Price List € 2013

(Discount: < € 500.- none; € 501-999 10%; >€ 1000-2499 20 %; > € 2500-5000 30 %; > € 5000.- 40 %)

The flowering size (FS) seedlings are carrying shoot buds of a size that suggests flower buds are present, flowering cannot be guaranteed though. The near flowering size (NFS) seedlings should flower in 1 year, if culture conditions are favorable.

Our stock is limited and orders have to be accepted on a first come basis.

Available Winter 2013/2014

No.	species / hybrid	NFS	FS	FS extra*

H0059	<i>Cypripedium Ulla Silkens</i> (<i>flavum</i> x <i>reginae</i>)	€20.00	-	-
H0060	<i>Cypripedium Wenqing</i> (<i>tibeticum</i> x <i>farreri</i>), first time offer!	-	€40.00	-

* Very strong plants with at least 2 growth buds, plants usually have already flowered in the past season.

** Seedlings of the true species (not small-flowered Cyp. fasciolatum!). FS seedlings have 2 growth buds, FS extra have 3-5 growth buds.

To select the best plants for sale, most of the FS and NFS-plants have been lifted from their beds and potted in September when they were still with green shoots, just before dropping the leaves. All plants will be dispatched after a 4 month hibernation phase to our customers bare-rooted in spring. On the following pages we present photos of the actual plants (if not noted otherwise) on offer:

S0008, *Cypripedium flavum* FS, 2 flowering seedlings from the offer in flower, June 14, 2013.

20 FS seedlings
of S0008,
Cyp. flavum

S0011 *Cypripedium plectrochilum*, FS plants on offer, photo taken June 13, 2013.

S0015 *Cypripedium shanxiense*. This is a rare species, even rarer offered anywhere! On the left a specimen from our mother plant stock with 3 flowers on the inflorescence, normally fully mature plants have only 2 flowers per stem. To the right one of the seedlings on offer. Both photos were taken in our nursery June 14, 2013.

S0043 *Cypripedium sichuanense*. The photo shows some of our mother plants. the seedlings on offer are near flowering size. Very few available!

S0048, *Cyp. bardolphianum*, sample photos, taken June 2012.

H0059, Cypripedium Ulla Silkens (*flavum* x *reginae*). The photo left is a flowering sample, the photos center and right show one of the actual seedlings on offer, photographed September 11, 2013.

H0059 Cypripedium Wenqing (*tibeticum* x *farreri*). This is a horticultural remake of the natural hybrid Cyp. x wenqingiae of similar parentage. We used one of our large selected Cyp. tibeticum mother plants and pollinated it with the compact true Cyp. farreri. The resulting seedlings are very attractively patterned.
